

Help Line Up My Labels: Guide for Mac!

Is your Avery product lining up on the computer screen but not lining up once they've been printed? Follow the instructions below to find out how to print perfectly!

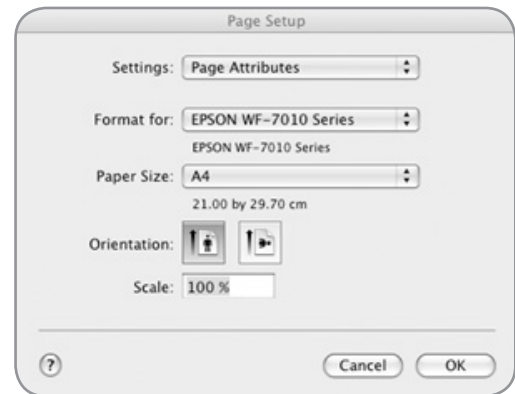

Step 1.

- Click on **File** on the top toolbar of your Microsoft Word document
- Select **Print** from the drop down menu
- Click on the **Page Setup** button at the bottom of the window
- In the **Paper Size** field, select **A4** and ensure **Scale** is set on **100%**. Click on **OK**.

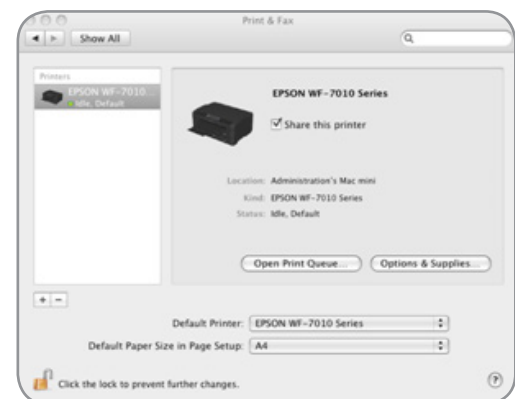

Step 2.

- Click on **File** on the top toolbar of your Microsoft Word document
- Click on the **Page Setup** from the drop down menu
- In the **Paper Size** field, select **A4** and ensure **Scale** is set on **100%**. Click on **OK**.

Step 3.

- Click on **Applications** and select **System Preferences**
- Under **Hardware**, select **Printers and Faxes**
- In the **Default Paper Size in Page Setup** field, select **A4**. Close the window.

Before printing on your labels please test print on plain paper to check the alignment!
