# 2018 - 2019 Product Catalogue

AVERY™

Did you know?

Avery has FREE easy-to-use template software to customise your labels. Simply go to Avery Design & Print **averyproducts.com.au/print** to start designing.

averyproducts.com.au/print

GENERAL PURPOSE LABELS

Avery labels are designed with superior adhesive and premium material for use in any labelling project.

Crystal Clear

LASER COMPATIBLE

Made from a gloss transparent PET film with toner receptive top coating, making these labels dirt and tear-resistant. Crystal Clear Labels are unaffected by temperature variations from -20°C to +80°C and the permanent adhesive permits use on glass, plastic, metal and paper.

Enviro

LASER COMPATIBLE

Label material made from white uncoated paper from 100% recycled fibres so you can be sure you are doing your bit to help the environment. Enviro Labels are unaffected by temperature variations -20°C to +100°C and are made with water soluble adhesive.

Frosted Clear

INKJET COMPATIBLE

Made from Clear PET Film, these Frosted Clear labels are unaffected by temperature variations -53°C to +93°C. Ideal for adding elegance to dark coloured and patterned envelopes especially for use at corporate events and for wedding invitations.

Gloss

LASER/INKJET COMPATIBLE

Made from special coated gloss finished paper, Gloss Labels are unaffected by temperature variations -20°C to +100°C. The permanent adhesive on these labels permits use on glass, metal, plastic and paper surfaces.

Matt

LASER/INKJET COMPATIBLE

Made from special coated matt white woodfree printing paper with a smooth, microporous surface structure. Matt Labels are unaffected by temperature variations from -20°C to +80°C and are made with permanent acrylic based adhesive which permits use to glass, plastic and paper surfaces.

Removable

LASER/INKJET COMPATIBLE

Made from woodfree machine finished paper, Removable Labels are unaffected by temperature variations -10°C to +70°C. The general purpose removable adhesive adheres securely to any smooth surface and can be easily removed when needed, making them ideal for temporary identification.

Trueblock®

LASER/INKJET COMPATIBLE

Featuring a unique opaque silver backing that completely covers up existing labels or previous information on parcels or boxes. Trueblock® Labels are unaffected by temperature variations -40°C to +149°C.

INDUSTRIAL GRADE SOLUTIONS

Avery Industrial grade labels are engineered to withstand harsh environments that a standard paper label can't endure.

White Heavy Duty

INKJET COMPATIBLE   **LASER** COMPATIBLE

Made from polyester material they are oil, dirt and water resistant and tear-proof. White Heavy Duty Labels are unaffected by temperature variations from -20°C to +80°C and the permanent adhesive permits use to metal, plastic, painted surfaces, polycarbonate and glass.

NoPeel™

LASER COMPATIBLE

Made from acrylic they are oil, dirt and water resistant and tear-proof. NoPeel™ Labels are unaffected by temperature variations -40°C to +100°C and the permanent adhesion permits use to laptops, tablets, mobiles, computers, computer screens and office equipment. These tamper-evident security labels are permanent and are designed not to peel off. If an attempt has been made to remove the label, the material flakes and disintegrates, making removal virtually impossible and tampering immediately obvious.

Heavy Duty Removable

LASER COMPATIBLE

Made from polyester material they are oil, dirt and weather resistant as well as tear-proof. These Removable Labels are unaffected by temperature variations -20°C to +80°C and are ideal for creating temporary labelling of equipment, facilities and storage supplies, stock take and organising workshops.

TripleBond™

LASER COMPATIBLE
Made from polyester material they are oil, dirt and water resistant and tear-proof. TripleBond™ Labels are unaffected by temperature variations from -40°C to +100°C and the permanent adhesion permits use to metal and plastic even if the surface is difficult e.g. hot, cold or rough.

Silver Heavy Duty

LASER COMPATIBLE

Made from polyester material they are oil, dirt and water resistant and tear-proof. Silver Heavy Duty Labels are unaffected by temperature variations from -40°C to +150°C and the permanent adhesive permits use to metal, plastic, painted surfaces, polycarbonate and glass.

Ultra-Resistant Outdoor

LASER COMPATIBLE

Made from a polyethylene film with a strong adhesion they are resistant to UV, weather, saltwater and chemicals. Ultra-Resistant Outdoor Labels are unaffected by temperature variations -40°C to +150°C and the strong adhesion permits use to metal, plastic, painted surfaces, polycarbonate and glass.

Did you know?

Using emotional imagery or words on labels engages consumers on a primal level and leads to higher interest and greater likelihood of purchase or customer loyalty.

1	2	3	4	6	8	10
L7167 J8167	L7168 J8168	L7155	L7169 J8169	L7166 J8166	L7165 J8165	L7173 J8173

Did you know?

Adding your logo to an address label gives confidence that the package is from a trusted source. Adding icons and images, bold colours and handwritten fonts all proved successful in our label experiments.

Did you know?

Return address labels not only prevent mail from getting lost in the post, it's also another way of reinforcing that the item is from a professional and trusted outlet which helps to encourage recipients to act.

LABEL MATERIAL 100% RECYCLED

Did you know?

Creating an element of curiosity is an effective way of attracting potential customers to your item, whether that's to encourage a purchase or open a parcel.

Did you know?

Using multiple labels in shipping achieves more of the desired outcomes than just using one. Multiple labels increase brand love by 129% and 116% for parcel content quality.
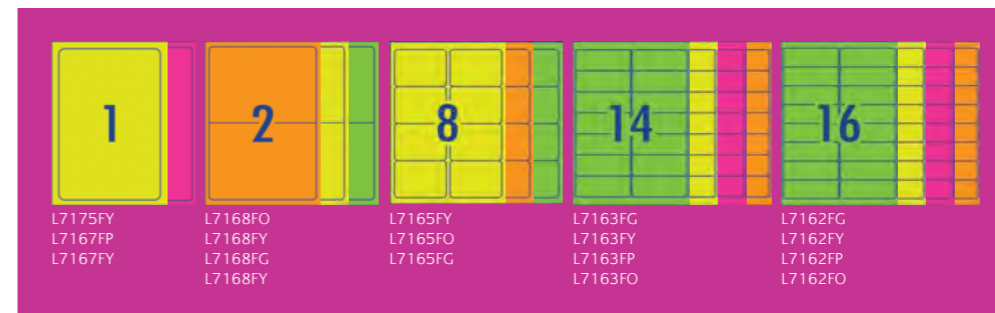

Crystal Clear Labels Laser

- Clear labels virtually disappear when applied to white and coloured surfaces for a printed on look
- Made from durable material, which is oil, dirt, splash and tear proof
- Customise your labels with our free and easy-to-use template software; Avery Design and Print – available at averyproducts.com.au/print
- Jam-Free™ reliability for trouble free printing on Laser printers, saving time and minimising wastage
- Ideal for sending elegant parcels, gifts and boxes

Did you know?

The use of a handwriting font can increase customer considerations by 30% and purchase intentions by 33%.

Did you know?

Labels that included a product signifier (like a bee on a pot of honey) made products much easier to find and made people look at the product for longer.

AVERY™

DID YOU KNOW ?

Avery Lateral Filing Systems can save up to **70%** more office space?

Conventional Filing Cabinet

1.62m²

- Low initial outlay but higher long term costs and ineffective solution
- Manufactured offshore – cheaper quality
- Takes up more floor space
- More time consuming to locate files
- Potential safety hazard if weight is uneven

Lateral Filing Cabinet

0.60m²
Based on 1200mm wide cabinet
- Moderate initial outlay but more cost-effective long term solution
- Australian made – sturdy construction
- Saves up to 70% floor space
- Colour coding makes locating files easier
- Reduces misfiling & filing time by 50%

Avery Term	Definition
Avery Design & Print Online	Using Avery Design & Print Online, you can add text, messages, images, and logos to any template and instantly print to create your perfect design. Start with a blank label and take full creative license, or tweak one of our many pre-designed templates to suit your needs.
Easy Apply™ Strips	Save time with the Easy Apply™ strips that let you print and apply all the tab labels at once onto the tabs rather than sticking them on one-by-one, making it simple to create custom dividers right from your desktop for a professional finish.
FSC Certified	FSC certification assures the consumer the product materials were sourced from responsibly managed forests. When you see an FSC logo on a product you can buy with the confidence that you are helping to ensure our forests are alive for generations to come.
Jam Free Guarantee	The Avery JamFree guarantee means that your product is produced and formatted in a way that prevents adhesives bleeding into your printer. This will give you peace of mind by ensuring no printer jams due to adhesive build up.
Mail Merge	A process which takes data from one source and applies it to another. By using Avery's Import Data feature you can rearrange information into a new format at the touch of a few buttons. Mail merging is perfect for producing address labels, invitations and mass mailings, and Avery's free Design & Print software includes this feature within it.
Mylar Dividers	Mylar dividers have reinforced holes and tabs for extra strength so you can use them time and time again. In addition, they are available in various tab formats, including numbered, lettered and plain tabs which are brightly coloured for easy identification.
NoPeel Labels	If an attempt has been made to remove the label the material flakes and disintegrates, making removal virtually impossible and tampering immediately visible.
Print & Divide	A perforated backing card for individual separation of the name badges, these can be sorted into sections before application and when required your attendees can apply their own badge themselves.
Print-to-the-edge	Gives you the ability to add a full-colour background to your labels to make your products really stand out and look professional.
Quick & Clean™	Avery Quick & Clean™ technology allows you to easily remove your product business cards from the sheet, leaving a completely straight and clean edge to give your business that professional image.
Permanent Labels	Avery permanent labels can be trusted to stay exactly where you left them, every time you need them. The permanent adhesive keeps the label securely in place making it ideal for parcels, branding, gifts or other applications where a label is carrying important information.
Pre-Printed Tabs	Pre-Printed Tabs mean your dividers are instantly ready to go. Numbers, letters, or months will give you an immediate system to help you to organise your filing.
Print & Divide	A perforated backing card for individual separation of the name badges, these can be sorted into sections before application and when required your attendees can apply their own badge themselves.
Printable on both sides	For products that won't be stuck down, why not present your creative designs on both sides to really show off. Create and print text and designs on both sides to spread your message in a more dimensional way.
Print-to-the-edge	Gives you the ability to add a full-colour background to your labels to make your products really stand out and look professional.
Quick & Clean™	Avery Quick & Clean™ technology allows you to easily remove your product from the sheet, leaving a completely straight and clean edge.
Quick Peel™ Labels	The unique QuickPeel™ feature allows labels to be easily taken from the sheet by removing a strip of the backing paper, revealing the edge of each label. You will never have to go through the pain of picking away at the corner of a label again!

Avery Term	Definition
Removable Labels	Perfect for your short term labelling requirements. They are easy to peel and apply and the removable adhesive sticks to glass, plastic and paper and when removed, no sticky residue is left behind.
Rewritable Labels	Avery Rewritable Labels are made from dry erase material, which means they are rewritable and removable making them perfect for temporary or permanent identification. Just wipe clean and rewrite when needed with a dry erase marker to easily update the label.
Self-Laminating Labels	Self-laminating labels will survive the harsh environments of both the dishwasher and the freezer. Identify lunchboxes or foodstorage boxes and be confident your labels will stay put. The self-laminating feature protects your writing and helps keep the label surface clean and protected. Just write, seal and stick.
Smooth Feed	High volume label users need labels designed for speed and high volume use. Avery Address Label with Smooth Feed are for frequent printing of labels for letters and envelopes, and are developed for high volume, high speed printers. The unique Avery Smooth Feed Edges and Jam-Free™ promise mean flawless high speed printing, even in high speed printers and copiers. That means faster, easier mailing!
Smudge Free Labels	Print and use straight away with Smudge Free Labels. Ink dries instantly to avoid smudging when handling and applying your labels, saving you time.
Style Edge™	A fun, stylish way to divide papers in your binder or planner, Style EdgeTM tabs offer a unique oval design with a modern look and 5 fresh colours to help make the tabs stand out. They also have a clever notch feature which prevents your title inserts from falling out.
Thermal Roll Labels	Thermal Roll Labels are ideal for use in warehousing and facilities for creating and printing product and inventory labels for quick and easy identification.
TripleBond Labels	Provides three times stronger adhesion than a standard paper label.
TrueBlock Labels	Avery Trueblock® technology creates a completely opaque barrier to hide whats underneath your label, whether it's an old label from pre-used packaging or a pattern on the box, Blockout will allow you to re-use that old box or envelope and make it look new.
Ultra-Resistant Labels	Resistant to Chemicals, UV and saltwater. Engineered for harsh environments.
Water Resistant labels	Tough, durable labels which withstand outdoor environments.
Weatherproof	Weatherproof Labels stand up to tough weather and temperature conditions and resist scuffs, tears and smudges so they remain easy to read.
