PRODUCT CATALOGUE

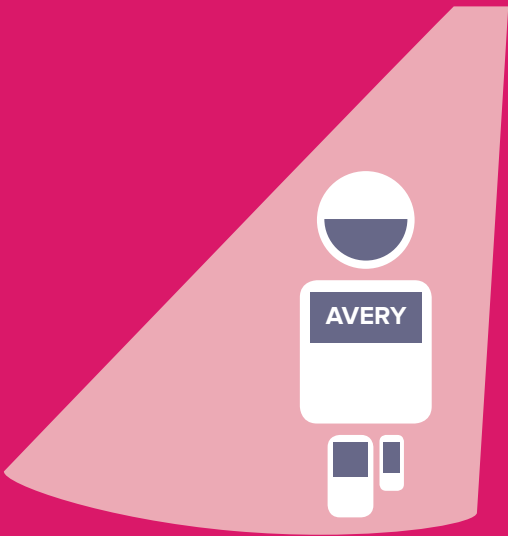

Be certain. Stick with Avery.

Be Certain. Stick With Avery.

Whenever, or whatever you need a label for, you can be certain Avery labels always work and always look good.

Stick with Avery – the premium self-adhesive label manufacturer.

Why Avery Labels.

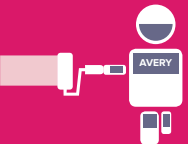

Sure Feed®

Prevents jamming in the printer when printing so your labels should fly through the printer. Stick with Avery – the premium self-adhesive label manufacturer.

Quick Peel

Effortlessly peel labels from the backing sheets, making it easier with less wastage, less time required.

Trueblock

Blocks and covers everything underneath so you can reuse and recycle packaging materials with ease.

Free Templates

Enables you to create professional labels and cards from your home and office, quickly and easily to make you stand out.

Stay Stuck

Avery superior quality adhesive means when you stick an Avery label you can be certain it stays stuck.

Different Shapes and Sizes

With our vast range of labels sizes, shapes, materials and pack quantities there is no job too big or too small to accomplish.

About Us

Stick with Avery - the premium quality self-adhesive label manufacturer. Whenever, or whatever you need a label for, you can be certain Avery labels always work and always look good.

Matt White Paper with Sure Feed®

Made from special coated matt white woodfree printing paper with a smooth, microporous surface structure and our patented Sure Feed technology for a more reliable feed through your printer.

LASER/INKJET COMPATIBLE

Trueblock®

Featuring a unique opaque silver backing that completely covers up existing labels or previous information on parcels or boxes. Trueblock® Labels are unaffected by temperature variations -40°C to +149°C.

LASER/INKJET COMPATIBLE

Removable

Made from woodfree machine finished paper, Removable Labels are unaffected by temperature variations -10°C to +70°C. The general purpose removable adhesive adheres securely to any smooth surface and can be easily removed when needed, making them ideal for temporary identification.

LASER/INKJET COMPATIBLE

Matt

Made from special coated matt white woodfree printing paper with a smooth, microporous surface structure. Matt Labels are unaffected by temperature variations from -20°C to +80°C and are made with permanent acrylic based adhesive which permits use to glass, plastic and paper surfaces.

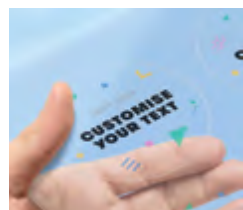

LASER/INKJET COMPATIBLE

Gloss

Made from special coated gloss finished paper, Gloss Labels are unaffected by temperature variations -20°C to +100°C. The permanent adhesive on these labels permits use on glass, metal, plastic and paper surfaces.

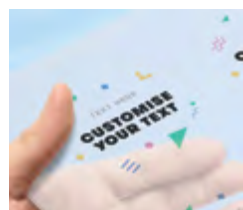

LASER/INKJET COMPATIBLE

Crystal Clear

Made from a gloss transparent PET film with toner receptive top coating, making these labels dirt and tear-resistant. Crystal Clear Labels are unaffected by temperature variations from -20°C to +80°C and the permanent adhesive permits use on glass, plastic, metal and paper.

LASER COMPATIBLE

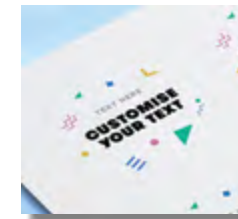

Frosted Clear

Made from Clear PET Film, these Frosted Clear labels are unaffected by temperature variations -53°C to +93°C. Ideal for adding elegance to dark coloured and patterned envelopes especially for use at corporate events and for wedding invitations.

INKJET COMPATIBLE

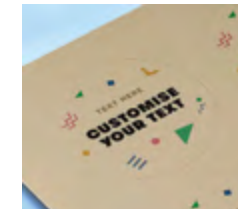

The above images are for demonstration purposes only. Not all materials listed above are available in a round label. Please refer to the catalogue or contact our friendly customer service team to confirm.

Eco Friendly

Made from white uncoated paper from 100% recycled fibres so you can be sure you are doing your bit to help the environment. Enviro Labels are unaffected by temperature variations -20°C to +100°C and are made with water soluble adhesive.

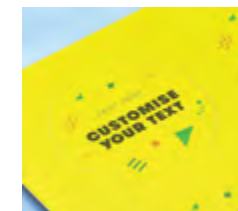

LASER COMPATIBLE

Kraft Brown

Made from light brown uncoated matt paper. Kraft Brown Labels are unaffected by temperature variations -40°C to 150°C and the permanent adhesive permits use on glass, plastic and paper.

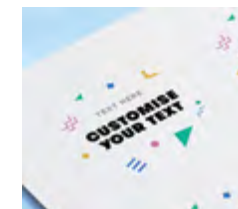

LASER/INKJET COMPATIBLE

Fluoro

Made from fluorescent coated woodfree paper available in orange, yellow, pink and green. Fluoro labels are unaffected by temperature variations -20°C - +80°C. The permanent acrylic based adhesive and bright colours are ideal for inventory labels, warning labels, eye-catching advertising and promotional labels.

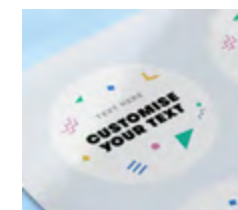

LASER COMPATIBLE

Fabric

Made from white acetate satin fabric with high opacity and lustrous finish. Fabric labels are unaffected by temperature variations -40°C - +90°C. The permanent acrylic based adhesive stays adhered throughout movement and removes cleanly on a variety of materials including textiles, mattresses, shoes and carpets.

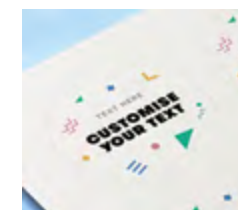

LASER COMPATIBLE

Self-Laminating

Made from polyester material featuring excellent tear strength, heat resistance, dimensional stability and chemical resistance. Self-Laminating Labels are unaffected by temperature variations from -40°C to 150°C and the permanent adhesive permits use on plastics, bare/coated/painted metals and outdoor industrial applications.

LASER/INKJET COMPATIBLE

Textured Linen

Made from white uncoated matt paper with a textured finish similar to linen material. Textured Linen labels are unaffected by temperature variations -53°C - +93°C. The permanent adhesive permits use to glass, plastic and paper surfaces.

LASER/INKJET COMPATIBLE

The above images are for demonstration purposes only. Not all materials listed above are available in a round label. Please refer to the catalogue or contact our friendly customer service team to confirm.

SAFETY & INDUSTRIAL GRADE MATERIALS

Avery Industrial grade labels are engineered to withstand harsh environments that a standard paper label can't endure.

White Heavy Duty

Made from polyester material they are oil, dirt and water resistant and tear-proof. White Heavy Duty Labels are unaffected by temperature variations from -20°C to +80°C and the permanent adhesive permits use to metal, plastic, painted surfaces, polycarbonate and glass.

LASER/INKJET COMPATIBLE

NoPeel™

Made from acrylic they are oil, dirt and water resistant and tear-proof. NoPeel™ Labels are unaffected by temperature variations -40°C to +100°C and the permanent adhesion permits use to laptops, tablets, mobiles, computers, computer screens and office equipment. These tamper-evident security labels are permanent and are designed not to peel off. If an attempt has been made to remove the label, the material flakes and disintegrates, making removal virtually impossible and tampering immediately obvious.

LASER COMPATIBLE

Heavy Duty Removable

Made from polyester material they are oil, dirt and weather resistant as well as tear-proof. These Removable Labels are unaffected by temperature variations -20°C to +80°C and are ideal for creating temporary labelling of equipment, facilities and storage supplies, stock take and organising workshops.

LASER COMPATIBLE

TripleBond™

Made from polyester material they are oil, dirt and water resistant and tear-proof. TripleBond™ Labels are unaffected by temperature variations from -40°C to +100°C and the permanent adhesion permits use to metal and plastic even if the surface is difficult e.g. hot, cold or rough.

LASER COMPATIBLE

Silver Heavy Duty

Made from polyester material they are oil, dirt and water resistant and tear-proof. Silver Heavy Duty Labels are unaffected by temperature variations from -40°C to +150°C and the permanent adhesive permits use to metal, plastic, painted surfaces, polycarbonate and glass.

LASER COMPATIBLE

Ultra-Resistant Outdoor

Made from a polyethylene film with a strong adhesion they are resistant to UV, weather, saltwater and chemicals. Ultra-Resistant Outdoor Labels are unaffected by temperature variations -40°C to +150°C and the strong adhesion permits use to metal, plastic, painted surfaces, polycarbonate and glass.

LASER COMPATIBLE

Introduction to Avery Materials

HOW ARE HEAVY DUTY LABELS DIFFERENT?

Avery understands there is a significant difference in adhesion strength and material requirements when labelling in industrial environments.

The construction of an Avery Industrial grade label ensures the labels adhere to a variety of substrates such as metal, wood (pallets), glass and plastic. They have an extra layer of plastic film for increased strength and durability.

These labels are engineered to withstand the range of conditions and hazards found in harsh industrial environments such as warehousing and logistics, manufacturing, laboratories and construction sites.

These labels can be used for everything from safety signage to chemical labels, asset management and inventory control.

PAPER

FACESTOCK

Copy / print paper

ADHESIVE

General purpose

LINER

Calendered craft paper

HEAVY DUTY

INDUSTRIAL LINER

Robust machine finished paper / high-speed print capable

ADHESIVE

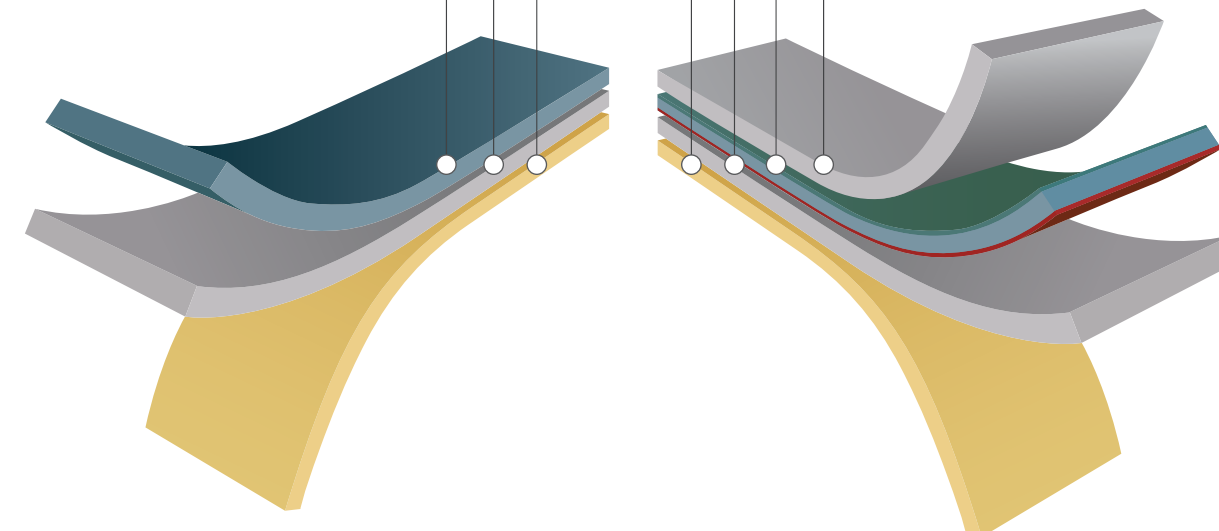

High peel strength / exceptional facestock anchorage / suitable for harsh environments

FACESTOCK

Engineered plastic film / chemical resistant / heat resistant / high tear strength / suitable for harsh environments

TOPCOAT

High abrasion resistance / high print quality / broad printer compatibility

- No download required

Labels

Whether you need to send mail out fast or organise your office, we've got the right label for you!

Our comprehensive label range will help save you time at work and at home. With FREE template software available at Avery Design & Print you can design and print your labels with ease.

Address Labels with Sure Feed® Laser

- Address labels are designed for use anywhere you frequently print your own mailing labels
- Labels feature Sure Feed®, which helps to minimise waste and inefficiency during printing by ensuring a reliable feed and accurate print alignment
- Labels feature Quick Peel® to ensure quick and easy detachment from the backing sheet for efficient application
- Superior adhesive withstands the high heat of laser printers
- Customise your labels with our free and easy-to-use template software: Avery Design and Print – available at averyproducts.com.au/print
- FSC® certified labels made with paper from well-managed forests and other controlled sources

Did you know?

It pays to place the label in the centre of your item and to place the most important information in the centre of the label. Be careful not to crowd this area of the label with too much information.

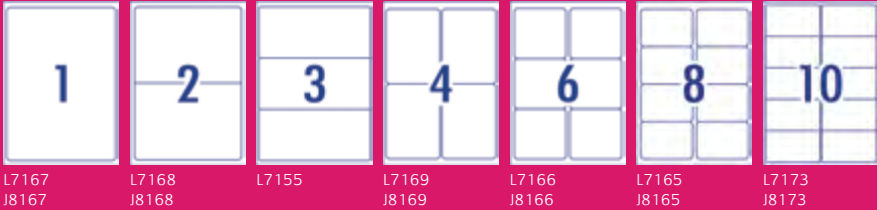

Avery helps make office and workplace organising activities professional and easy.

Look for our new Sure Feed Technology on our Address Labels range for a reliable printer feed every time.

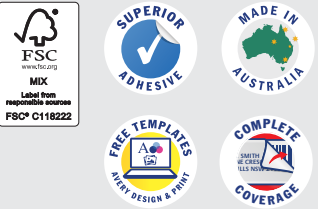

Did you know?

Using emotional imagery or words on labels engages consumers on a primal level and leads to higher interest and greater likelihood of purchase or customer loyalty.

Shipping Labels with Trueblock® Laser

Did you know?

Return address labels not only prevent mail from getting lost in the post, it's also another way of reinforcing that the item is from a professional and trusted outlet which helps to encourage recipients to act.

Adding your logo to an address label gives confidence that the package is from a trusted source. Adding icons and images, bold colours and handwritten fonts all proved successful in our label experiments.

Did you know?

Creating an element of curiosity is an effective way of attracting potential customers to your item, whether that's to encourage a purchase or open a parcel.

Did you know?

Using multiple labels in shipping achieves more of the desired outcomes than just using one. Multiple labels increase brand love by 129% and 116% for parcel content quality.

Labels

High Visibility Labels Laser

- Fluro coloured Shipping Labels make your parcels and items highly visible and enable instant recognition
- Jam-Free reliability for trouble free printing on Laser printers, saving time and minimising wastage
- Customise your labels with our free and easy-to-use template software; Avery Design and Print – available at averyproducts.com.au/print
- Ideal for marking documents and files that need special attention and for labelling products
- Available in a wide range of colours and sizes to suit your shipping needs

* These products are made from a thicker label material which provides an optimal base to print vibrant coloured labels

Did you know?

Labels that included a product signifier (like a bee on a pot of honey) made products much easier to find and made people look at the product for longer.

Tubeclip File Fasteners

Avery Coloured Tubeclips are designed for adding, removing, scanning and photocopying paperwork and can be added to any Manilla or Lateral file. They expand as your files expand and hold up to 90mm of paper.

Avery Tubeclip® three piece sets consists of a self-adhesive base which adheres to the file, a plastic compressor bar which is placed on top of the pages to keep them in place, and a plastic U piece which inserts into the compressor bar to secure your documents.

Avery Non-Adhesive Unitubes

Avery Unitube fasteners are ideal for archiving and permanent storage of your paperwork and can also be placed in commercial shredders. They come in a convenient 3 piece set or base only pack and including a plastic non-adhesive tube.

DID YOU
KNOW

?

Avery Lateral Filing Systems can
save up to **70%** more office space?

Conventional Filing Cabinet

- Low initial outlay but higher long term costs and ineffective solution
- Manufactured offshore – cheaper quality
- Takes up more floor space
- More time consuming to locate files
- Potential safety hazard if weight is uneven

Lateral Filing Cabinet

- Moderate initial outlay but more cost-effective long term solution
- Australian made – sturdy construction
- Saves up to 70% floor space
- Colour coding makes locating files easier
- Reduces misfiling & filing time by 50%

Avery Term	Definition
Avery Design & Print Online	Using Avery Design & Print Online, you can add text, messages, images, and logos to any template and instantly print to create your perfect design. Start with a blank label and take full creative license, or tweak one of our many pre-designed templates to suit your needs.
Easy Apply™ Strips	Save time with the Easy Apply™ strips that let you print and apply all the tab labels at once onto the tabs rather than sticking them on one-by-one, making it simple to create custom dividers right from your desktop for a professional finish.
FSC® Certified	FSC® certification assures the consumer the product materials were sourced from responsibly managed forests. When you see an FSC® logo on a product you can buy with the confidence that you are helping to ensure our forests are alive for generations to come.
Jam Free Guarantee	The Avery Jam Free guarantee means that your product is produced and formatted in a way that prevents adhesives bleeding into your printer. This will give you peace of mind by ensuring no printer jams due to adhesive build up.
Mail Merge	A process which takes data from one source and applies it to another. By using Avery's Import Data feature you can rearrange information into a new format at the touch of a few buttons. Mail merging is perfect for producing address labels, invitations and mass mailings, and Avery's free Design & Print software includes this feature within it.
Mylar Dividers	Mylar dividers have reinforced holes and tabs for extra strength so you can use them time and time again. In addition, they are available in various tab formats, including numbered, lettered and plain tabs which are brightly coloured for easy identification.
NoPeel™ Labels	If an attempt has been made to remove the label the material flakes and disintegrates, making removal virtually impossible and tampering immediately visible.
Print & Divide	A perforated backing card for individual separation of the name badges, these can be sorted into sections before application and when required your attendees can apply their own badge themselves.
Print-to-the-edge	Gives you the ability to add a full-colour background to your labels to make your products really stand out and look professional.
Permanent Labels	Avery permanent labels can be trusted to stay exactly where you left them, every time you need them. The permanent adhesive keeps the label securely in place making it ideal for parcels, branding, gifts or other applications where a label is carrying important information.
Pre-Printed Tabs	Pre-Printed Tabs mean your dividers are instantly ready to go. Numbers, letters, or months will give you an immediate system to help you to organise your filing.
Printable on both sides	For products that won't be stuck down, why not present your creative designs on both sides to really show off. Create and print text and designs on both sides to spread your message in a more dimensional way.
Quick & Clean™	Avery Quick & Clean™ technology allows you to easily remove your product business cards from the sheet, leaving a completely straight and clean edge to give your business that professional image.
Quick Peel™ Labels	The unique QuickPeel™ feature allows labels to be easily taken from the sheet by removing a strip of the backing paper, revealing the edge of each label. You will never have to go through the pain of picking away at the corner of a label again!
Removable Labels	Perfect for your short term labelling requirements. They are easy to peel and apply and the removable adhesive sticks to glass, plastic and paper and when removed, no sticky residue is left behind.
Rewritable Labels	Avery Rewritable Labels are made from dry erase material, which means they are rewritable and removable making them perfect for temporary or permanent identification. Just wipe clean and rewrite when needed with a dry erase marker to easily update the label.
Self-Laminating Labels	Self-laminating labels will survive the harsh environments of both the dishwasher and the freezer. Identify lunchboxes or food storage boxes and be confident your labels will stay put. The self-laminating feature protects your writing and helps keep the label surface clean and protected. Just write, seal and stick.

Avery Term	Definition
Smooth Feed	High volume label users need labels designed for speed and high volume use. Avery Address Label with Smooth Feed are for frequent printing of labels for letters and envelopes, and are developed for high volume, high speed printers. The unique Avery Smooth Feed Edges and Jam-Free™ promise mean flawless high speed printing, even in high speed printers and copiers. That means faster, easier mailing!
Smudge Free Labels	Print and use straight away with Smudge Free Labels. Ink dries instantly to avoid smudging when handling and applying your labels, saving you time.
Surefeed®	Sure Feed technology helps to minimise waste and inefficiency during your printing by ensuring a reliable feed and accurate print alignment.
Style Edge™	A fun, stylish way to divide papers in your binder or planner, Style Edge™ tabs offer a unique oval design with a modern look and 5 fresh colours to help make the tabs stand out. They also have a clever notch feature which prevents your title inserts from falling out.
Thermal Roll Labels	Thermal Roll Labels are ideal for use in warehousing and facilities for creating and printing product and inventory labels for quick and easy identification.
TripleBond™ Labels	Provides three times stronger adhesion than a standard paper label.
TrueBlock Labels	Avery Trueblock® technology creates a completely opaque barrier to hide what's underneath your label, whether it's an old label from pre-used packaging or a pattern on the box, Blockout will allow you to re-use that old box or envelope and make it look new.
Ultra-Resistant Labels	Resistant to Chemicals, UV and saltwater. Engineered for harsh environments.
Water Resistant labels	Tough, durable labels which withstand outdoor environments.
Weatherproof	Weatherproof Labels stand up to tough weather and temperature conditions and resist scuffs, tears and smudges so they remain easy to read.
